

To show that Ada is getting into the city class, we point to an eighteen inning ball game. All you rube towns sit back

# MURDER CHARGE LISTED AGAINST 'FATTY' ARBUCKLE

Noted Comedian Confined To Small Cell Awaiting His Hearing.

NO STATEMENT GIVEN

Premier Fun Maker Keeps Silence When Asked of Girl's Death.

(By the Associated Press)  
SAN FRANCISCO, Sept. 12.—A formal complaint charging murder was sworn to before police judge, Daniel O'Brien, today against Roscoe (Fatty) Arbuckle in connection with the death of Miss Virginia Rappe, motion picture actress. The complaint was signed by Mrs. Raminia Maud Delmont, a friend of the dead actress. It was the second murder charge made against Arbuckle, the first having been made Saturday night by the investigating detectives for the purpose of holding him until the formal charge could be filed. Mrs. Delmont, in a signed and sworn statement, gave police many details of the party in Arbuckle's rooms in the St. Francis hotel a week ago today. Miss Rappe died four days after wards. Mrs. Delmont attended the party and assisted Miss Rappe after the alleged attack by Arbuckle. Arbuckle later appeared in court to be arraigned on the charge by Mrs. Delmont. At the request of the district attorney the case was continued until Friday morning and Arbuckle was taken back to his rooms.

SAN FRANCISCO, Sept. 12.—A formal charge of first degree murder, San Francisco police authorities announced, will be listed against Roscoe (Fatty) Arbuckle, motion picture comedian, under arrest here in connection with the death last Friday of Miss Virginia Rappe. Miss Rappe's death followed her attending a party given in Arbuckle's suite of rooms at a local hotel here a week ago.

She died of injuries which district attorney Matthew Brady of San Francisco and other authorities agreed were inflicted by Arbuckle.

Mr. Arbuckle is held without bail in the home of Justice Sphrea. He was arrested Saturday night on his return from Los Angeles and put in on a charge of murder. He is confined in a small cell, Number 12, on the Hall of Justice Sphrea known as "felony row."

The Arbuckle case is scheduled to be brought before the San Francisco grand jury today.

Coroner Inquest Called.

A coroner's inquest into Miss Rappe's death has been called for next Thursday. Arbuckle has requested that none but his attorney be allowed to see him at the Hall of Justice. He declined yesterday, on the advice of his counsel, to make a statement. His lawyers also refused to make a statement or discuss the case in any way. Police were busy yesterday examining witnesses whom they say will be presented to the grand jury tonight. These witnesses number 23 and are being guarded by police detectives.

ARBUCKLE FILM IS CANCELED BY THEATERS

LOS ANGELES, Sept. 12.—The latest film feature production of Roscoe Arbuckle was canceled last night at one of the largest theaters and motion picture houses in the city. The film has been showing all the week.

Sid Cammer, owner of the theater, declined to comment upon the cancellation.

No Arbuckle films have been advertised by any local theater today.

Barred in Oklahoma

OKLAHOMA CITY, Sept. 12.—An order barring the exhibition of motion pictures in which Roscoe Arbuckle is featured, pending the murder charge placed against him in San Francisco, was signed here today by Mayor Walton.

MEMPHIS HOLDS OUT ON ARBUCKLE FILMS

MEMPHIS, Tenn., Sept. 12.—The Memphis board of censors announced today that the showing of motion pictures featuring Roscoe Arbuckle would not be permitted in Memphis until he had cleared himself of the charges against him in connection with the death of Miss Virginia Rappe in San Francisco.

Mayor Bars Picture.

NEDFORD, Mass., Sept. 12.—Mayor Haynes today barred Roscoe Arbuckle films until action against him had been disposed of.

OKLAHOMA WEATHER

Tonight and Tuesday probable showers.

# CHICK HATCHED BY FLIVVER AT HUGO RECENTLY

HUGO, Sept. 12.—(Special)—The hatching of chickens by a common "flivver" touring car is the latest infringement on science that has been offered to this part of the state.

Johnnie Keesee and Neal Burrows made the startling discovery while on an extended fishing trip in mountains near here, recently. A case of "good fresh country eggs" was among the provisions carried by the young explorers on their trip. It was one of these eggs that gave forth a real, live feathered chicken, after a rough ride of seventy miles in the car. On the second night of the outing, while cooking supper, the distressed chirp of a young fowl was heard by the two ninnyrds. An investigation revealed the fact that the car had hatched one of the eggs. A downy chicken sprang from the eggcrate when the lid was removed. The little fowl was given to a nearby farmer who declared it to be perfectly normal.

# INDIANS ARE NOT GIVEN TO CRIMES

State Prison Report Shows Whites and Blacks Are Both Worse.

Indians have much less inclination toward crime than either whites or blacks.

This is brought out clearly in a report from the Oklahoma State penitentiary, contained in its official publication, The Oklahoma Bulletin, which has been received recently by Sheriff Bob Duncan.

Of sixty-two convicted persons received at the penitentiary in August only four were Indians and of 66 discharged from the prison in the same month, one was an Indian. Whether or not this indicates a growing tendency toward crime among Indians of the state is a matter of speculation.

Other interesting phases of criminality in Oklahoma recently is brought out in the prison report. Of the remaining 58 prisoners received during the month of August, 20 were negroes and 34 were whites. Of the 65 whites and blacks discharged, 13 were negroes. This indicates a slight increase in the number of negroes being sent to the penitentiary, although the difference shown in statistics is not striking.

Larceny is easily the prevailing crime listed on the roll of prisoners received and discharged. Fifteen convictions for larceny were received during the month and the same number discharged. Under this head were included grand larceny, the larceny of animals, and the theft of automobiles. Murder and manslaughter probably rank next, eight such cases being received and nine discharged.

207 Murders in 1920

There were 207 homicides in Oklahoma last year, according to the vital statistics department of the state board of health. Information on the number of life sentences is not available but not more than 20 murderers have been given life. Only four white men have received the extreme penalty and two of them have been pulled back from the chair by appeals and stays of execution.

The use of narcotics has only recently arrived at the felony stage, according to officers. Sheriff Duncan pointed out that penitentiary sentences now for the use of "dope" are growing more numerous. Eight were received at the Oklahoma state penitentiary in August alone for the possession and selling of narcotics. Most of these were under one year sentence, and were largely white men. One Indian was sentenced on this charge.

Only one case of embezzlement was received and one discharged. Burglary was more prolific.

# ROMANCE FADES AS MRS. SPIKER DESERTS HOME

(By the Associated Press)  
BALTIMORE, Sept. 12.—The romance of Mrs. Emma Spiker, which started two years ago when, as the mother of Perley Spiker's child, she came to America from England to wed his brother, Guy Spiker, has been shattered.

Mrs. Spiker has disappeared, leaving the child which has been adopted by Mrs. Perley Spiker, who forgave her husband of his infidelity overseas, and it is now at the Perley Spiker home.

The English girl left home several weeks ago, according to her husband, leaving a note saying that she no longer cared for Spiker and did not want to live with him.

"She went of her own free will," said Guy Spiker, "and she can stay."

Guy Spiker has been out of work for some time. For more than a month Mrs. Spiker had been employed in a millinery shop.

# SCHOOLS OF ADA OPEN TODAY FOR ARMY OF PUPILS

All Wards Reported Filled As Fall Term Opens With Good Swing.

HIGH SCHOOL STARTS

Football Squad Continues Workout for First Game This Week.

Public schools of Ada threw open their doors Monday morning and the chiming of school bells was answered by the appearance on campus of the city of more than 2000 students. Although nothing like complete enrollment reports will be available today, school authorities are convinced that the total attendance will run well above all previous records.

All ward schools of the city reported crowded classes. In a few instances special arrangements had to be made to care for an overflow enrollment and the already record attendance is expected to be augmented the rest of this week by pupils entering school late.

400 at High School.

High school opened today with a rush and before noon had settled down to a steady schedule, according to late reports from the office. The enrollment is much larger than at the beginning last year, and members of the faculty stated that it was up to expectations, with a good possibility of going over the 400 mark. One of the pleasing features in the addition of several new members to the senior class, more than enough to make up for those last year.

All the teachers were reported on the job, all classes meeting on schedule with the exception of some which were overworked and had to be adjusted. The band was reorganized and started where it left off last year. Halls which have been silent for weeks, rang again with the noise of opening day.

The football squad is continuing its workouts with pep and vigor and the boys are eagerly looking forward to the game with Maud during the fair this week. They are prepared to take the visitors to a cleaning or get cleaned in the attempt, the coach said. Many new faces are to be seen among the former students, not all of them being members of the lower classes.

# MANY HOUSES ARE RUINED IN BLAST

Nova Scotia Town Rocked By Explosion Like One During War.

(By the Associated Press)  
MON BLANK, Nova Scotia, Sept. 12.—The explosion of five Imperial oil tanks at the plant located on the east side of Halifax Harbor early today, caused the wreck of nearly half the homes in Halifax. It was similar to the explosion in 1917 when a munitions plant at Mon Blank blew up and wrecked a third of the homes in Halifax with the loss of 1200 lives. Residents there believed another such disaster had occurred today. Indications were that there had been no loss of life, nor serious injuries inflicted by the explosion.

One of the officials of the company stated that there were three explosions, the second and third following closely after the first.

42 BOYS HAVE GREAT TIME AT SCOUT LODGE

Forty-two Ada boys staged their "biggest time of the season" at the Boy Scouts' league near the old city reservoir Saturday night as guests of the local Scout Council. They were accompanied to the lodge by a group of business men including Robert Wimshis, Charles Cunningham, Rev. H. M. Woods, Prof. J. H. Hodges, and Prof. E. E. Emerson.

Plans for the organization of an Indian Scout order in Ada were announced to the boys by Scout Executive Harry Miller.

Supervised games including piling up wood, boxing, and other sports were given.

NOTICE MASONS.

Ada Lodge No. 119 A. F. & A. M., will meet in regular communication tonight at 8 o'clock. Visitors always welcome.—John Thrasher, W. M.

# ENROLLMENT AT NORMAL MAY GO OVER ESTIMATE

Early reports from the Normal today are to the effect that predictions for an enrollment of more than 550 students for the fall term will be fulfilled. The group of new students enrolling today swelled the total to 531 and more were expected for the afternoon enrolling period. It was added that next Monday would virtually close the enrollment for the fall term, very few students being expected after that date.

It was reported that renewed activity in musical circles was gratifying. A men's chorus and a women's chorus have been organized and will be under the supervision of Miss Emma Keller. Other opportunities for musical education are offered and a large percentage of the students are becoming interested, reports show.

One of the most interesting announcements of the week was that a lyceum course would be given by the Normal this year. It will consist of four numbers, each being given at a period convenient for a large number of students. The Great Lakes Quartet will be the first number, appearing here October 20. Following this will be an address by former secretary of the navy Joseph Daniels on November 4. On January 15 the Montague Light Opera Company will appear here and the closing number will be given on March 7 consisting of a play "The Mollusc."

This with the athletics and other private entertainments will make up the greater portion of the entertainment for students of the school.

# STREETS MUST BE SAFE MAYOR SAYS

Two Draw Fines on Charge of Asking Girls To "Take a Ride."

Police court got into action late Sunday night and with quick precision ground out a hard decision for two young men from Roff, each being charged with molesting women on the streets of the city. The Mayor was called from bed at a late hour and gave each of the men the limit in fines.

The men were Sam Garren and Ervin Mulder of Roff, who, according to statements from the police, were in Ada in a light model sedan. Witnesses said the men had attempted to induce some girls, who were going home from church, to get in the car with them and "take a little ride." The girls reported to the police the alleged insult and said they took the number of the car.

Garren and Mulder were taken to the Mayor's home where the girls were asked to come and identify them. It was only a matter of minutes until they were taken to headquarters, tried, found guilty and fined \$25 each.

It is understood that the two men contend they are innocent and were not the parties wanted. They came up for the ball game yesterday afternoon, and insist they were going about their regular business when taken in charge. They insist they did not plead guilty and have been grossly mistreated.

Mayor Kitchens declared this morning that such occurrences on the streets "were going to be stopped" if it was within his power. Many complaints have been received of men trying to induce girls and women into cars with them, he said.

"I want to make this city safe for any woman to go anywhere at any time without an escort and still be safe," he asserted. "If I fail to do this, I will have fallen short in my duty and failed to carry out my plans."

His advice to girls and women, who must for any reason be on the streets alone at night, is in such a case to take a description of the car, and men and if possible, the car number, and report immediately to the mayor or police, who will be instantly on the job to bring the offenders to justice."

# Harding Pledges To Help War Veterans Who Were Wounded

(By the Associated Press)

ATLANTIC CITY, N. J., Sept. 12.—An early morning ball game today was the closing event of President Harding's week-end vacation here. He plans to board the presidential yacht, Mayflower, for a cruise to New York en route to Washington. If the president should decide to sail direct to Washington he would arrive there Thursday.

After returning from church Sunday morning, he addressed a group of war veterans, expressing a hope for their welfare as well as the nation's. He also said in his address that the United States sustained the morale of the allies in the war, but that its force did not alone win the war. The president pledged himself to the wounded and disabled veterans.

# BOY IS STABBED IN FIGHTING AT SUNDAY MEETING

Alleged Assailant Is Held in Jail Here Today As Sequel to Fracas.

11 WOUNDS INFLICTED

Officers Await Description of Injuries Before Filing Charges.

John Jordan, 17, lies today at the home of County Commissioner W. H. Brents in a critical condition and Hamilton Snyder, his alleged assailant, is being held in the county jail as the result of a stabbing last night at the conclusion of a camp meeting service at Blue Mound, nine miles from Hickory.

A telephone message from Brents to the county sheriff's office Monday morning said Jordan rested well last night but a full description of his condition will not be available until Brents arrives here Monday afternoon to relate in person the extent of the boy's wounds. Jordan was stabbed eleven times in a close contact fight with Snyder, eye witnesses of the fracas said.

Exactly what led up to the fight is not known here. The two boys are said to have engaged in a little trouble during the service when one stung the other with a rubber band. After the meeting, according to a story told early Monday by S. N. Cantrell who saw the conclusion of the fight, the two boys met near the camp meeting grounds to "have out" their disagreement. In the words which ensued, Cantrell said Snyder grabbed Jordan, drew him up close, and began cutting him in the breast and arms with a pocket knife. One of the stabs is said to have reached Jordan's lung.

The injured boy fought desperately in spite of his wounds until other men rushed up and separated the two, witnesses said. Snyder is being held in the county jail today and charges against him will be filed upon Brents' appearance in Ada to tell what he knows of the injured boy's condition, officers said.

Dr. Campbell of Hickory, and a doctor from Roff whose name had not been learned here Monday, attended the Jordan boy at the Brents home where he was carried by Cantrell and Q. S. Hooks.

# 'ALIEN GOLD' IS CALLED IN TODAY

All Money of Draft Evader Is Called In by U. S. Government.

(By the Associated Press)  
WASHINGTON, Sept. 12.—The government is going after the "alien pot of gold," alien property custodian, announced today that a complaint had been prepared demanding formal surrender by Emma Bergdoll, mother of Grover Cleveland Bergdoll, as attorney in the absence of her son, all property in which he held an interest, including gold coin taken from the treasury before the draft evader escaped from federal authorities and fled to Germany. It is expected that the complaint will be filed in the district court at Philadelphia today.

The demand was first made last May that Mrs. Bergdoll deliver all property belonging to her son.

"Under the terms of the resolution signed by the president on July 2," said Mr. Miller, "all the demands made before that time by the law, are to be enforced."

"It is our intention to insist on Mrs. Bergdoll's complying with the terms of the treaty with the enemy act, and in accordance with our demand made thereunder. We are prepared to go to the full extent of the law in causing her to do so, if it becomes necessary. The department of justice is aiding us through the district attorney at Philadelphia, and we will proceed vigorously but fairly."

DIVORCED WOMAN IS HELD FOR SHOOTING

(By the Associated Press)

BARTLESVILLE, Sept. 12.—Mrs. Mabel Maizee, 24, divorcee, is in the county jail here charged with the murder of Raymond Boone, 19, of Ramona. Mrs. Maizee, according to police, shot Boone at a country dance eight miles southeast of here Saturday night when he attempted to dance with another woman.

# DEATH OF 24 ON FAULTY BRIDGE MAY BE PROBED

(By the Associated Press)  
CHESTER, Penn., Sept. 12.—City officials and citizens alike turned their attention today from the death scene at Third street and Chester river where 24 persons lost their lives Sunday night in a collapse of a bridge, to the investigations which will definitely place the blame for the accident on the responsible party.

One member of the board of commissioners stated that the collision was due to an unusual weight being placed on a weak supporting arm, but he declared that the bridge had been inspected and pronounced safe by the county engineer ten months ago. The broken arm was concealed from view, he added.

On the other hand Police Chief Davenport declared the bridge had been condemned several years ago and that only two of the five bolts were supporting the arm were capable of standing the strain of the pressure.

# FAT MEN OF CITY WILL PLAY SLIMS

Mighty Conflict Promised In Baseball Clash Here September 22nd.

The heavyweights and slim-jims are after each other!

What promises to be the most unique, interesting and funniest baseball game ever witnessed by an Ada audience will be played at Fair Grounds park, Sept. 22, in the interest of the High School Athletic association, under the auspices of the Ada Chamber of Commerce. Fat men of the town are forming a team to meet the slims.

Bill Coffman, heavyweight of the Coffman, Bobbitt and Sparks Hardware store, has been appointed captain of the big men's team. He has entered into the work with a vim and has been showing a lot of pep recently. Knowing that it will be a hard tilt, he has been looking over the best material but declined to make a statement as to who he had in mind for the heavy team.

He did say, however, that among some of the pinch hitters would be W. E. Harvey, J. O. Abney, M. Levin, O. E. Parker, Barber Dorsey, R. E. Haynes, M. F. McFarland, Carpenter Lamb, J. F. McKeel, McAnally, "Fatty" Rains and any others he could find that weighed over 240 pounds. Every man on the fat team must weigh at least 200 pounds, Mr. Coffman said.

Rules Are Strict

Some other rules mentioned were that if any man who played on either team was caught with a baseball, bat, glove, looking at a rule book, talking baseball, or in any way pretended to be interested in the game before it is played, he would be fined anywhere from \$5 to \$50. He was very enthusiastic over the prospects for his team to win, and was unwilling to consider the victory going to the slim-jims.

"They haven't a chance, not in it with us when it comes to playing baseball," he said.

Bud Gregg has charge of the slim team. Any fellow who is over six feet tall, or is a long, lanky slim built human, and who would like to help out the fellows whom the heavens think haven't a chance should report at the slim camp, according to reports from there.

The game will be played in the afternoon. The Chamber of Commerce will have charge of the affair and all stores in the city will close. A committee has been appointed to see that everybody attends the game or has a ticket, as the money will be turned over to the high school. Besides helping the school, it will be a great sport event, full of thrills, much excitement and amusement, it was pointed out.

POLICE PROBE DOUBLE MURDER IN CHICAGO

(By the Associated Press)

CHICAGO, Sept. 12.—Authorities are investigating the double murder of Bernard J. Dougherty, auto salesman and Carl Ausmus, his companion, today and are attempting to shift the facts from the alleged confessions from Harvey W. Church yesterday.

In one confession, according to the police, Church admitted committing both murders singlehanded. In a second informal confession, the police say, he asserted that he had accomplices in the crime.

# U. S. Department of Agriculture, Weather Bureau

WASHINGTON, Sept. 10.—Forecast for the period September 12, 1921, to September 17, 1921, inclusive.

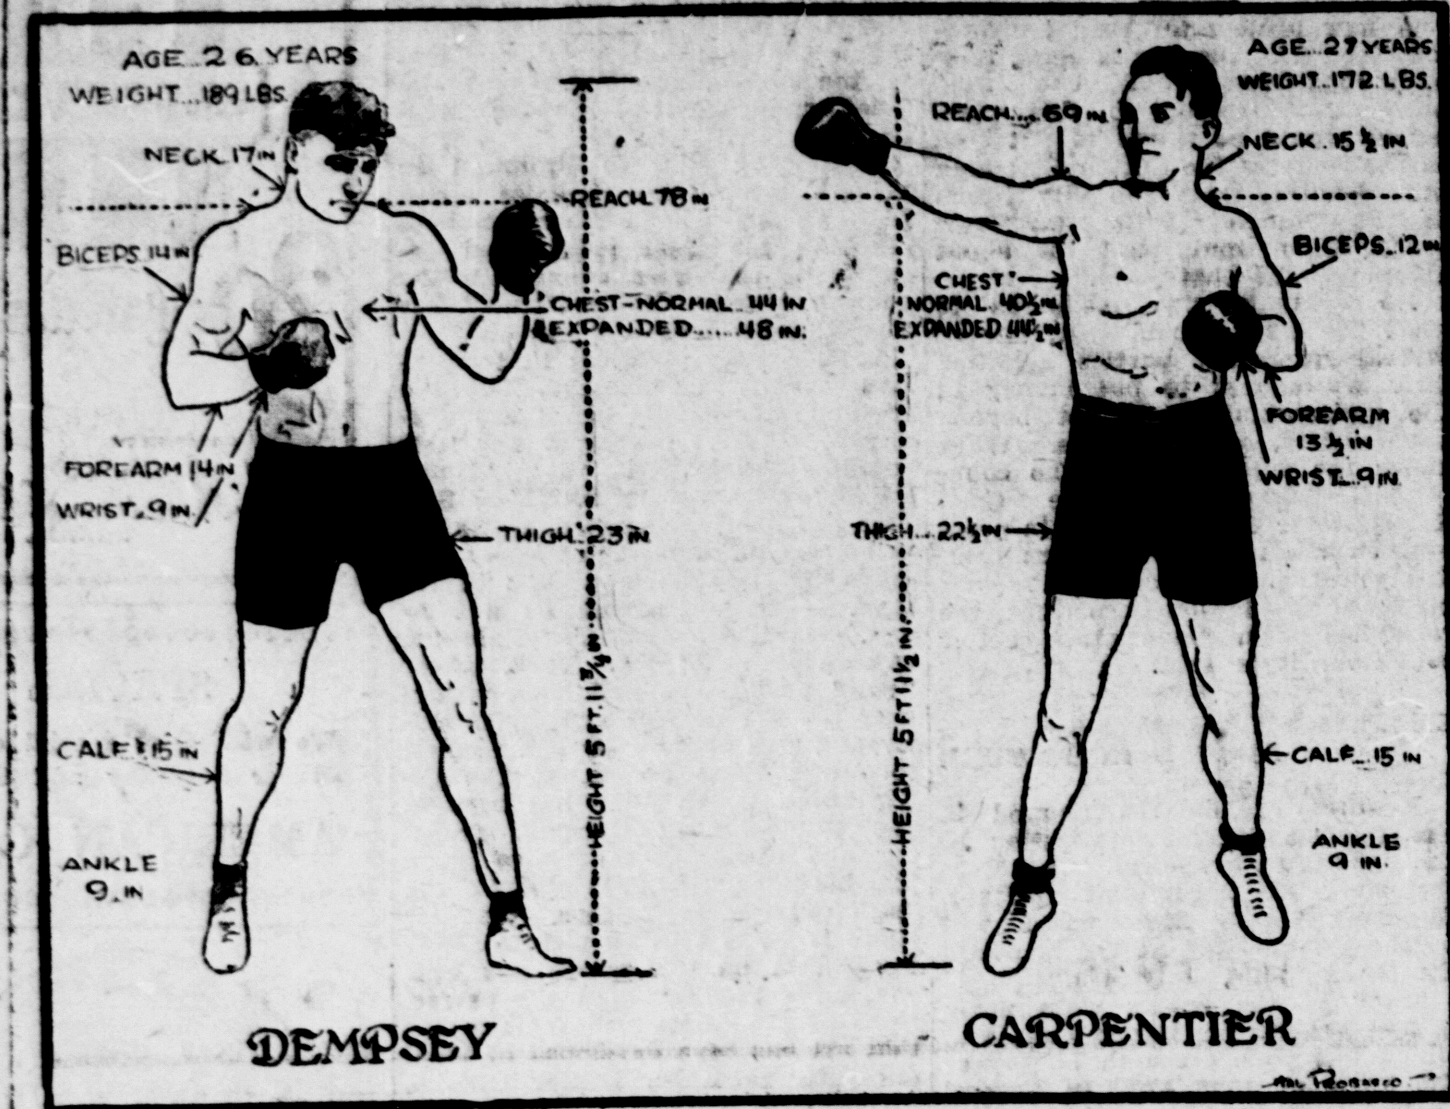

West Gulf States: Unsettled weather and occasional rains with temperature near, or below, the normal. There is a disturbance over the Caribbean Sea moving west-northwestward.

Upper Mississippi and Lower Missouri Valleys: Fair weather, with much cooler and frosts at the week, followed by generally fair weather and normal temperature thereafter.

Southern Rocky Mountain and Plateau Region: Generally fair weather and normal temperature but frosts are probable at the beginning of the week over the north and central points.

### HOW DEMPSEY AND CARPENTIER COMPARE

### COTTON GROWING HAS BEEN IN GOOD STATE

(By The Associated Press)  
OKLAHOMA CITY, July 1.—The growth of cotton in the state has thus far been satisfactory and the crop generally is in good to excellent condition, says a statement issued here today by H. H. Shuts, federal statistician, compiled from reports from the cotton producing sections. Some instances of poor and uneven stands are reported, due to dry soil during May and early June, described as rapid growing months.

"Where the cotton fields are clean, especially in those sections where advantages was taken of the dry spell a month ago, the condition borders on normal, the statement declares, and much of the backward cotton will rapidly improve if rains do not continue as during the last several weeks.

"A number of localities report no cotton planted this year while others report they have cut their acreage greatly, particularly the large planters," Mr. Shuts says. "The greatest acreage reduction—58 per cent—is in the northern district, a relatively unimportant cotton section.

"The southern district, considered the more important, reports the least reduction in acreage. More than 2,900,000 acres were planted to cotton in Oklahoma last year, although from unofficial reports it is not expected that this figure will in any way be approached in acreage this year.

The boll weevil has already become decidedly numerous and is puncturing the forms as fast as they appear, continues the statement. In 1920, the first appearance of the weevil was noted along the Red River bottoms on June 15, although the month was not unusually wet or cold and the weevils did not increase as rapidly as under the present wet, cloudy weather.

"During the last 10 years the condition of cotton in Oklahoma has improved on an average of 2 points from May 25 to June 25, the years 1915, 1916 and 1917 being the only years that the crop did not improve," the report states. This year has been no exception.

### CHICKASHA'S TRADE DAY IS GOOD WINNER

CHICKASHA, July 1.—(Special)—The second big bargain day for Chickasha, staged under the co-operative plan by local merchants, is to be held on Saturday, July 2, according to publicity which the committee of the Retail Merchants' association has sent out.

It is pointed out that the bargain day will be held Saturday instead of on the first Monday, this time, because of the fact that the first Monday of the month falls on July 4, and it was not deemed advisable to wait for the second Monday.

As was the case on the June bargain day here, the merchants have looked their stocks over carefully and each merchant has picked out some useful article, thoroughly new and desirable and has placed a price on that article at cost or below as the feature bargain he is offering for that day only. Other bargains than the big feature is being offered by practically all merchants and business men here state that every indication points to a record crowd on that day.

In addition to the bargain day offerings at Chickasha stores, the celebration, which starts that day and is to continue through July 4, will be in full blast, offering amusements as well as money saving possibilities in the Chickasha stores.

The June bargain day was by far the greatest ever staged in Chickasha, but local merchants expect next Saturday to surpass even that record.

### COURT MAY DECLARE RECESS FOR JULY 4

Although everything is in readiness for the opening of the July session of the county court Monday, July 4, the court doubtless will go into recess a few minutes after it is called to order so that all county officers can observe the national holiday, county officers said this morning.

In this way the court will fulfill the requirement that it convene the first Monday in July and at the same time it will give place to a countrywide celebration of the nation's birthday.

Tuesday morning, however, it will start on a heavy civil docket which probably will not give way to the criminal cases until July 11. Those who are mentioned in cases on the criminal docket have been asked to appear in court Tuesday to enter their pleas. The recess of the county court until Tuesday will prepare the scene for the closing of all county offices, except that of Sheriff Bob Duncan, Monday.

Scouts Meet Early  
Boy Scout Troop No. 2 will meet at 6:30 tonight instead of the regular meeting time at 7:30, at the Baptist church, according to an announcement made this morning by Scoutmaster N. W. Pitts.

A coated tongue, bad breath, dizziness and a clogged condition in the bowels can be quickly relieved by using Prickly Ash Bitters. It is a man's remedy for such ailments. Price \$1.25 per bottle. Sold by Gwin & Mays Drug Co.

First: It is sold at a moderate price. You save when you buy it.

Second: It has more than the ordinary leavening strength; therefore, you use less.

Third: There are no failures—no spoiled bakings. Nothing is thrown away because it always makes the sweetest, most palatable of foods.

Fourth: It is used by millions of housewives—leading domestic science teachers and cooking experts.

## YOU SAVE

WHEN YOU BUY IT - WHEN YOU USE IT

# CALUMET

## BAKING POWDER

**Fifth:** It's the best Baking Powder that can be produced. Was given highest awards at World's Pure Food Exposition, Chicago, Paris Exposition, Paris, France.

**Sixth:** It contains only such ingredients as have been officially approved by the United States Food Authorities.

The finest quality Baking Powder—at the most economical cost. Strictly pure—absolutely dependable. "The Biggest Bargain That Goes Into the Kitchen Today."

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

**Calumet Nut Cookie Recipe**

—1/4 Cup butter, 1/2 Cup sugar, 2 Eggs, 1/2 Cup flour, 1 Level teaspoon Calumet Baking Powder, 3/4 Cup chopped nuts, 1 Teaspoon lemon juice. Then mix in the regular way.

Let a NEWS WANT AD get it for you.

# BUICK

The steady demand for Buick today is the result of Buick's 20 years' consistent reliable performance everywhere.

A ride in a 1922 Buick will convince you that Buick performance is even better than the Buick reputation. You won't realize until you try it how comfortable and beautiful it is; how easy it is to operate; how accessible the mechanism!

Mizpah.

### Oak Avenue B. Y. P. U.

Subject—Bible study meeting. Psalms 100.

Leader—Mr. Henson.

Introduction—Leader.

Importance of praising God.—Earnest Lawyer.

Our obligation to praise God.—Myrtle Qualls.

Praise God for His dealing with Israel.—Roy Sawyers.

(First Part) The world should praise God with gladness.—Loyal Snead.

Reading—Nina Collins.

(Second Part) Praise a duty as well as a privilege.—Josie McManus.

(Third Part) Praise God because of what He is.—Mr. Hynds.

Closing song.

### First Baptist Church

Sunday School opens at our church at 9:45 tomorrow.

Mr. J. A. Riddling is superintendent. We had 632 present last Sunday. We believe we can maintain an average of above 600 until August 31st, that we will win in the contest over McAlester and Durant. We are in the lead now and we must remain there. We have classes for all ages and a splendid corps of teachers.

The pastor is engaged in a revival meeting at the old tabernacle at Sixth and Johnson streets, under the auspices of the Oak Avenue Baptist church. Our services will be held tomorrow at eleven o'clock. We want to urge all our people to come over there for the services after Sunday School is over at the church. The subject will be "Better Acquaintance With Jesus." Let's pack the tabernacle at that hour.

The B. Y. P. U. will all meet at 7 o'clock at the church as usual and dismiss a little early in order to get to the tabernacle at 8 o'clock for the evening preaching hour. The subject will be "The Flood, a Type of the Judgment." Let all our people be present at that service.

We cordially invite all visitors and strangers in the city to come to the meeting. It is a nice cool place and comfortably seated. The singing is marvelously fine under the direction of Mr. Edmiston. Let us greet you there.

Baptizing will be held at the First Baptist church Sunday afternoon at 2:30 for all candidates; both those who were converted and joined the church during the First Baptist revival recently, and those who have been converted in the Oak Avenue Baptist revival.

Men's Bible Class

The Men's Bible Class of the First Baptist Sunday School will meet at the McSwain theater at 9:30. We had 150 present last Sunday. Durant had 135 in their class last Sunday. Mr. Ellison will teach the class tomorrow. Let's have two hundred men to greet him.

We have plenty of song books and it is an inspiration to hear this great group of men sing the old songs. May we have the pleasure of extending to you the glad hand there at 9:30?

C. C. Morris, President.  
J. T. Braly, Secretary.

At the Presbyterian Church

Sunday, July 10, 1921

Sunday School, 9:45 a. m.

Preaching services at 11 a. m.

and 8:15 p. m. conducted by Dr. Ralph J. Lamb of Tulsa.

Senior Endeavor at usual hour.

All members of the congregation are urged to be present. Everyone has a welcome here.

Christian Church

Bible School 9:45 a. m.

Morning service 11 a. m.

Junior C. E. 2:30 p. m.

Senior C. E. 7 p. m.

Evening service 8 p. m.

Hot? Yes, a little, but who cares? If you come to Bible School the electric fans will make you forget all about it and if you need it the teachers will see that you get a good palm leaf fan. Come and enjoy the day with us.

Our financial secretary urges that all back pledges be paid Sunday if possible.

Methodist Church

"Royalty and Loyalty" will be the pastor's subject Sunday morning at the 11 o'clock service. His evening subject will be "When the Cross Roads Cross the Third Time." Those who have read, "When the Cross Roads Cross Again" will be especially interested in this subject, while all will be blessed and helped who hear the pastor on this subject. All the Methodists of the community are urged to be present at every service Sunday and an earnest invitation is extended to every one to attend these services. The Sunday School meets at 9:30 a. m. The

Epworth League meets at 7 p. m. A hearty welcome to all. There will be special music at the preaching services and at the Epworth League service. R. C. Taylor, Pastor.

### Christian Men's Bible Class

Are you going to be one of that large number of live wires that attend Dr. Linscheid's Bible class Sunday morning. They meet at the American theater each Sunday morning at 9:30. They have a good cool place to meet, too. A special number of some kind each meeting. You will enjoy it just like the rest who go if you will try it once. Then come with the bunch up to the church services afterward.

Features of the service at the class will be a talk by Judge Orel Busby and a vocal solo by Prof. James O. Legg of the Normal faculty.

H. M. WOODS, Pastor.

### Christian Endeavor.

Topic—"What is Our Reasonable Service."

Song—Virginia Abney.

Prayer.

Program:

How can we know what is our reasonable service?—Don Evans.

In what ways is good secular work a model for religious work?—Thelma Roberts.

How alone can we find satisfaction in our Christian service?—Taylor Mitchell.

What is one hindrance in the way of Christian service?—Eddie Mae Horn.

Song.

How does our Christian Endeavor pledge aid us in performing our reasonable service?—Kathryn Wilczek.

What is one foolish excuse for not doing our work for Christ?—Grace Mooney.

How can we make our consciences more sensitive regarding our reasonable service?—Clara Rayburn.

How is good work for Christ rewarded?—Wilma Chilcutt.

### Christian Science

Services at 11 a. m. at 111 North Broadway.

Subject: Sacrament.

Golden Text: Hebrews 13:16. To do good and to communicate forget not; for with such sacrifices God is well pleased.

Epworth League.

July 10, 7 p. m.

Songs.

Subject: "Consecration of Our Bodies, a Reasonable Sacrifice."

Leader—Fannie Mae McCain.

Scriptural reading: Romans 12:1-8 and prayer—Rev. Taylor.

Vocal Duet—Violet Moore and Lucile Chapman.

Sacrifice and joy—Mrs. Keltner.

Denying self—Burgess Steed.

Giving all reasonable—Laron Malloy.

Rising Sacrifice—Wilson Sadler.

Does God ever ask unreasonable things?—Velma Jordan.

Thoughts for development—Little Terry.

Piano Solo—Hazel Rollow.

Benediction.

### Two Are Fined

Horace White was fined \$24.75 this week by Police Judge Kitchens on a charge of speeding.

John Henry was confined to jail today on default of payment of his fine of \$14.75, placed against him for alleged drunkenness and destroying jail property.

### PROMISE \$5,000,000 FOR COTTON CREDIT

(By the Associated Press)

OKLAHOMA CITY, July 9.—That there will be no difficulty in working out the details of financing the 1921 cotton crop of the members of the Oklahoma Cotton Growers association is the opinion of leading bankers of the state expressed Friday. This optimistic feeling was the unanimous expression of the members of the special bankers' committee recently appointed to co-operate with the cotton association in working out the financial problems.

The committee was in joint session Friday with the executive committee of the cotton association in the latter's office here. The meeting was called to discuss plans for financing the coming cotton crop by the banks of the Oklahoma cotton belt.

"The committee is of the opinion that, with the volume of collateral security to be held by the Oklahoma Cotton Growers association, it will have no difficulty in working out its financial plans with the assistance of the bankers of the state," said D. S. Wolfinger of Hobart, president of the Oklahoma Bankers' association.

"The banks of Oklahoma will endeavor to formulate a plan," Wolfinger continued, "whereby they can handle the business of the association in the same manner as that of the street buyer. The committee is making arrangements for a line of credit for the association among the bankers of not less than \$5,000,000."

### STORES TO BE ASKED TO CLOSE FOR HOUR

The stores of the city will be asked to close at 5 o'clock Tuesday in order that all may have an opportunity to visit the bank house of the Boy Scouts at the City Lake, according to officials of the Lions Club. The merchants will be seen early Monday to ascertain their attitude in the matter.

The officials point out that the stores close for round-ups and such affairs and that they ought not to object to giving an hour to encourage the boys of the community in outdoor and healthful living.

## CONFERENCE DELEGATES.

President Harding is to be commended for the keen judgment shown in appointing the delegates to the disarmament conference which is to convene on November 11. All of the men have had experience in government and international affairs and ought to prove the strongest team in the conference.

Elihu Root, by virtue of his long period of service in public life and particularly his service as senator and secretary of state, ought to be one of the strong men of the conference, capable of taking his place by the side of the most astute statesmen from Europe. Secretary of State Hughes, while lacking much of the training and native ability of Root, usually thinks clearly. Henry Cabot Lodge, though a strong partisan and given to prejudices, is a man of extraordinary ability and will have a chance to do that which, he claims, President Wilson failed to do.

To our way of thinking, Oscar Underwood, the senator from Alabama, is the strongest of the four. He has the esteem and respect of all members of congress, regardless of their political affiliation. While a conservative in most of his views, he is not ultra conservative and has been a giant in the halls of congress for many years. Had he not been from a southern state, Underwood would probably have been the democratic nominee in 1912 when President Wilson led the party to victory. Underwood combines the desired qualities of a thinker, a student and a man of enough legislative experience to realize he must get the most of what he wants instead of refusing to take any if he cannot get all he wants.

In choosing these four, President Harding seems to realize that to do any effective work the conference must be composed of men who have a wide grasp of world affairs, and are willing to give and take ideas, thus shaping a schedule that will work. Aside from Lodge, not one of them is of the bigoted and non-compromising type.

We doubt if many people have a clear idea of the resources and possibilities of Pontotoc county. Unless one has traveled over its various roads and visited the various corners of the county he is not in a position to realize just what we have here. Wonderful progress has been made in every line in recent years, but the ultimate possibilities of development are too great to be considered in sight yet. From an agricultural view point the township fairs held last week prove to the most skeptical that no other section surpasses us in products that can be grown successfully. Almost anything that grows in the temperate zone flourishes here and it is only a matter of effort necessary to produce anything wanted. Only a fraction of the tillable land is yet under the plow and when it is the variety, quantity and value of all products will be amazing. While the farming interests will always be paramount, it is well to remember the extent of the mineral resources. Already we see brick and cement manufactured in large quantities, asphalt and glass sand mined and shipped out, while there are deposits of potters' clay and other things that will in time add to the wealth of the country. It is all a matter of enterprise and effort.

This year has been full of freaky incidents. Drouths have occurred in the rainy sections. Most of the floods have occurred in the generally semi-arid regions. Baseball games have been won in the ninth innings with a dozen or so scores. Men have trown up good jobs and gone idle for choice. Boll weevils have thrived where they never thrived before. To paraphrase Shakespeare, stranger things occur in Heaven and earth, Horatio, than your philosophy has ever dreamed of.

The Holdenville Democrat passed its twenty-fifth milestone last week. A quarter of a century is a long time when measured by history in Oklahoma and the Democrat has had its share of ups and downs, just like other industries and individuals, but with Luther Harrison at the helm it is sailing on smooth waters and a credit to its community. May it live to celebrate many more anniversaries.

The News thanks all those who have said complimentary things about the Fair Editions of the News publications. To be frank with you, we were proud of the publications, though we have never issued a newspaper that pleased us. All in all, however, the Fair Editions, we hope, will give general satisfaction to the readers.

Now that the township fairs are over, all of us should begin boosting for the county fair. And in this connection, the News would like to see more city folk attend the fair this week. While it is primarily for the rural citizens, those from the cities will learn much and appreciate more than ever the possibilities of this county, if they will attend.

The displays at the township fairs give some indication as to the agricultural possibilities of this county. Possibly no other county in the Southwest has such a variety of profitable crops. We can grow anything from boll weevils to alfalfa.

## EXPERIENCED "JOBLESS" EXPERTS—AT LARGE

## The Editor of the Press

What Will It Be.

(Durant Weekly News)  
"Perhaps we would get along better, says an exchange, 'if we had more appropriations for construction and fewer for destruction.'"

Brother, you said something.

Smaller appropriations for the navy and bigger ones for good roads.

Smaller appropriations for the army and bigger ones for public education and public health.

Smaller appropriation for fortifications and bigger ones for public building where they are needed.

Smaller appropriations for destruction and bigger ones for construction.

We are going to have these very things, some day.

The wonder is that we have not had them long ago.

Blowing Your Money.

(Tulsa Tribune)  
Continuing its spending jag, the national government in the first 15 days of August spent \$174,596,598, compared with \$154,956,530 in the first 15 days of August, 1920.

Bill-collectors during July tapped the taxpayers' treasury to the tune of \$321,818,569. In July, 1920, Uncle Sam paid out only \$306,501,839.

Talk about government economy is mostly just that talk. Actual figures show things going from bad to worse. The Treasury Department in July spent \$43,970,001. In July a year ago, it got along with \$36,333,348.

"Independent offices and commissions" spent \$14,763,335 compared with \$7,652,687 in July, 1920.

So it goes, with the average upward toward higher taxes.

There are thousands of ways Uncle Sam could economize. Here's one: Government departments and bureaus figure out how much money they'll need. Under the new budget system, Director Dawes looks over these estimates and recommends to the president what he thinks is visible. This recommendation goes to congress. Maybe congress cuts its appropriations accordingly. May be not. Doesn't make much difference, for the departments and bureaus are accustomed to go ahead and spend all they want to. Then they say, "Here are some bills I didn't have money to pay. Slip me jack." And congress has to rush through a "deficiency appropriation."

It's like reducing the cash allowance of a spendthrift wife, then giving her unlimited charge accounts.

There can't be any real economy in government until every department and bureau is compelled to live within its allowance. Dawes sees this. He's just sent word to every department that it must turn in monthly statements of its expenditures. He wants to nail them before they get too far in the hole.

If over-spending were going on in any of the big corporations, the boss would soon stop it. He'd either fire the department heads or tell them if they didn't keep within bounds they would have to pay the difference out of their own pockets.

That's what a sane Washington would do. Politics prevents it.

But Dawes sees the evil. He's on the right track, trying to stop it. And he CAN stop it—if you and other taxpayers back him up. Write your congressman. Write Dawes. Write Harding. Don't mince words. Tell them this over-spending has got to stop.

Phone 4 is the place to get service in job work or advertising.

## STORK POPULAR BIRD IN TURKS' NATIONAL CITY

(By the Associated Press)

ANGORA, Sept. 12.—The stork is the most conspicuous object in this city, the capital of Nationalist Turkey. There are storks perched on every housetop. One solemn, huge pair has its nest built on the state column erected long ago, under the Romans, to honor the Emperor Augustus. Others have their nests on the roof of the parliament building. Several huge pairs, inhabit the roof of the Hotel Hurriyet (Liberty). Small boys do not throw stones at them, nor do the men shoot them.

The storks are supposed to make trips to Arabia, to Medina and the holy city of Mecca. The Turkish superstition about the stork is that if seen carrying red weeds or grass in its flight, this is a sign of death to the beholder and of long life is the grass is green.

Anatolia is a paradise for birds. The Turks never shoot them nor destroy their nests. The little boy with the slingshot is spanked if found doing them mischief. Hence they flourish in abundance with their only enemies the eagle and the magpie.

If you feel bad; if you are "blue" tired and discouraged, without apparent reason, you need Prickly Ash Bitters, the system purifier. It cleanses the stomach, helps digestion, restores action in the torpid liver, drives out gas and fermented matter in the bowels, and brings back that fine feeling of strength, vim and cheerfulness which only men in perfect health enjoy. Price \$1.25 per bottle. Sold by Gwin & Mays. (adv)

## WOMEN SMOKING "FAGS" IN OKLAHOMA CITY

(By the Associated Press)

OKLAHOMA CITY, Sept. 12.—More women purchased cigarettes at Oklahoma City tobacco stands during the past summer than ever before according to the opinion of a majority of dealers, who were canvassed concerning their sales to women.

"I've seen several women smoking cigars," one dealer said, but I think that won't become such a fad as the cigarette smoking."

"We have sold cigarettes to at least 100 women in the past three weeks," said one dealer on Grand avenue, "some of them I believe bought them for their husbands or men friends, however. Last year we didn't sell so many to women, and during the war we didn't sell so many as most people believed."

The character of cigarettes sold varied with the location of the shops, dealers said.

The habit of "putting it off" has caused the loss of many lives. A dose of Prickly Ash Bitters at the first sign of indigestion, constipation and kidney trouble wards off sickness and saves money. Men who are good managers should always keep a bottle on the shelf at home. Price \$1.25 per bottle. Sold by Gwin & Mays. (adv)

## TWO PRIZE HEIFERS ARE ADDED TO A. & M. STOCK

(By the Associated Press)

STILLWATER, Sept. 12.—Two prize winning Angus heifers have just been added to the Oklahoma A. & M. college livestock herds through purchase by the state board of agriculture.

One, a junior yearling, is Blackbird Maoml 3d, registered No. 319-895, purchased from J. C. Simpson, a Muskogee breeder. This animal was a member of Simpson's show

## Veteran of Civil War Still Hale and Hearty

GEORGE D. SHAW, Springfield, Mass.

"To say that I feel twenty-five years younger, twenty-five years healthier and twenty-five years stronger expresses what Tanlac has done for me better than any other way I can put it," said George D. Shaw, veteran of the Civil War, who now lives at 321 Walnut street Springfield, Mass.

"I am now seventy-eight years old and I don't hesitate to say I have never known a medicine to equal Tanlac. For fifteen years I was subject to attacks of indigestion that were so bad at times I would have to lay up for a week or two. For a long time I lived on crackers and milk alone as nothing else cared with me.

"When I started on Tanlac I weighed only one hundred and seventeen pounds and my days were thought to be numbered. I've been so wonderfully built up, I now weigh one hundred and forty-three pounds and my stomach is as sound as a dollar. In fact, I believe I could eat the old army rations again without it hurting me in the least.

"I never miss a chance of saying a good word for Tanlac and I would like to urge the boys of the 'Sixties' who are not feeling right to give it a trial, for I am sure it would put them in line again just as it has me. For a man of my age to have no physical ailment, to be well and strong and enjoy life as he did twenty-five years ago, is certainly something to be thankful for and there is nothing too good I can say for Tanlac."

Tanlac is sold in Ada by M. A. Watts and by leading druggists everywhere.

### KONAWA MAN SHOOT WITH STATES CRACK TEAM

KONAWA, Sept. 12.—(Special)—Captain Joseph C. Looney of this place is one of 14 members of the crack rifle team of the Oklahoma National Guard which left September 1 for Camp Perry, Ohio, to compete with other national guard teams for the championship of the United States. The squad has spent some time practicing and will be notified within the next few days when it is to enter the contest.

Looney is a graduate of the University of Oklahoma and an instructor in the department of government there.

## 4,700 EXPECTED AT STATE UNIVERSITY

(By the Associated Press)  
NORMAN, Sept. 12.—The University of Oklahoma starts classes this year Monday, September 19, with 4,700 students expected, an increase of a little more than 200 over last year, 4,481 being enrolled then.

Many students are being enrolled from other state universities, and from colleges outside the state, who although living in Oklahoma previously have decided to get their education outside.

A great many of these students are back to state schools this year according to Dr. Stratton D. Brooks, president of the university, who says less students are going from the state now than formerly. The students at the university, a co-educational institution are about equally divided among the sexes, 2,353 men being enrolled last year, as compared with 2,500 expected this year. The women enrolled last year numbered 2,182, compared with 2,200 expected this year.

No new departments were added this year, but about twenty changes were made in the faculty, according to President Brooks. The faculty is one of the largest in the south, 223 professors and teachers being listed. Of these, 188 are men, and 45 women.

More students seemed interested in the school of arts and sciences last year, than in any other course, and indications were that the course again this year would be favorite. There were 2,397 students enrolled in the school of arts and sciences last year, and 568 in engineering; 581 in fine arts, 217 in law; 103 in medicine, 38 in the nurses' course; 159 in pharmacy, and 847 in correspondence courses. The entire correspondence division numbered 1,235 students, but some of these it was explained, also had been students in residence during the year.

The school has slightly less money than last year, \$839,252 being established for its expenses, by the Eighth legislature. For the year 1920-21, \$905,286.42.

One new building is being completed by the school—it is the administration building of the New University Hospital at Oklahoma City, which is a unit of the medical school of the university.

## REVOLUTION IS SEEN IN CHEMISTRY WORLD

(By the Associated Press)  
NEW YORK, Sept. 12.—A revolution in chemical science which will have a "wide bearing on human affairs," was prophesied by Sir William J. Pope, president of the Society of Chemical Industry of Great Britain, in an address here yesterday before the International meeting of the British organization and the American Chemical Society.

"It is safe to prophesy that the next great epoch of organic chemical progress lies in the very near future and that it will lead us to laboratory methods of imitating with considerable fidelity the complex chemical changes brought about in living matter by the utilization of low potential energy," he said.

"When we possess full working details concerning the plant-leaf process for converting carbon-dioxide and water into formaldehyde and oxygen by utilizing the sun's energy, when we can make indigo and quinine by the identical methods adopted by the plants, chemical technology will be an entirely different proposition from the one which it now represents."

Further along in his address, which was entitled "Chemistry and Life," he said:

"On all hands we are met by the demand and indeed by the expectation that science will lift the curse of Adam from humanity. It is no part of my task today to discuss philosophical questions which originated in the Garden of Eden, but it seems plain that modern science is called upon to find means for curtailing the expenditure of such high potential forms of energy as human labor and mineral."

"The solution of this problem must come from the proper utilization of the radiant energy which comes to us from the sun; we require efficient methods for transporting solar energy from the tropics for use in our more temperate climes. It is perfectly possible that the scientific study of oil bearing plants in tropical regions may lead to such improvements in yield and cost production that vegetable oils will replace the ordinary fuels, coal and petroleum now used the world over."

## BATTERS RACING FOR HONORS IN NATIONAL CAMP

(By the Associated Press)  
CHICAGO, Sept. 12.—A quartette of American League sluggers is staging one of the greatest batting races since years ago when Napoleon Lajoie of Cleveland and Ty Cobb of the Tigers fought it out for the league leadership, with only a fraction of a point separating them at the end of the season.

Harry Hellman and Ty Cobb, the Detroit stars, are holding first and second position as the final stretch is started with George Sisler, the St. Louis idol and last year's champion, putting on an attack which has carried him into fourth place, ahead of Tris Speaker, leader of the World's champions, and which threatens to carry him to the top again.

During the past two weeks, Sisler has hit for an average of just below .500, having cracked out 32 hits in 69 times at bat. He is just four points behind Babe Ruth of the Yankees, who is in third place. Hellman's average is .403, with Cobb trailing with .399. Ruth is smashing the ball for a mark of .383, while Sisler is hitting .379. Speaker, who was tied with the St. Louis star a week ago, is fifth with .369.

Ruth smashed out six home runs since the last compilation of averages and brought his season's string to 54, equalling his 1920 record. The home run king in pounding out his 54th four ply blow placed himself twenty days ahead of his 1920 record. At the present rate, with almost a month more to go, he will easily increase the world's record for home runs, with 60 as being a conservative estimate.

The big southpaw slugger, also increased his total base record to 293, the result of 176 hits. Besides his homers, he has made 39 doubles and 12 triples.

S. Harris of Washington by stealing one base has brought his record for the season to 26 thefts.

The averages are of players who have participated in 80 or more games of last Friday.

### ASIATICS TO CEASE KISSING AS GREETING

(By the Associated Press)  
ANGORA, Aug. 18.—The age-old custom of man publicly kissing other men as a mark of affection, esteem or reverence, is passing in Asia Minor.

As in the French army, high officers or generals of the Turk Nationalist army kiss men whom they decorate or wish to commend. General Jamet Pasha, in reviewing infantry often walks up to some stalwart soldier, slaps him on the shoulders, and kisses him on both cheeks as a mark of public approval. The correspondent has seen a high officer kneel and kiss the hands of General Mouhidine bey, the former teacher of the younger officer.

But in general, as a custom of the people, of friends meeting and embracing after long separation, kissing is a thing of the past.

### NOTICE ELKS

## Always in Style

Good health is always in style. It matches any color you wear. It fits into any kind of politics and any kind of religion. Good health comes from good blood. If your blood is out of order, take Dr. Pierce's Golden Medical Discovery. You need it if your food doesn't sit right in the stomach, if you are run down, if you can't sleep well, if you tire easily, if you are out of sorts. Take it. You have good health and be happy just as so many others do. Send 10c to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., if you want a large trial package.

## BRIGHT JERSEY TO BE WORN ON ILLINOIS GRID

(By the Associated Press)  
URBANA, Ill., Sept. 12.—Since the coming of Coach Robert Zuppke, psychology has played a more or less important part in the development of University of Illinois football teams. This year a new innovation, psychologically important, will be tried out.

When the Illinois football team appears on the field this fall, the traditional blue sweater will not be seen, but instead the players will wear orange jerseys.

The plan was discussed by Coach Zuppke and Dr. C. H. Griffith of the department of psychology. Dr. Griffith, who teaches a course in the University coaching school dealing with the facts of psychology as applied to the needs of athletic coaches, made a study of the requirements for a satisfactory jersey and decided that an orange one was the best suited for football.

"The question of peripheral vision is an important one," said Dr. Griffith. "In a football game the men on the team are playing against a dirty, grey greenish background furnished by the gridiron and the grandstands. It is desirable that a color should be chosen that will stand out against this background. This involves a question of conditions of intensity and quality, with quality playing in the field of vision the important role."

Holding Colors Sought  
"A color that holds fairly well over the whole field or vision is wanted, as well as one that merely differs with the background. The blues and the yellows and the blacks and the whites are the only qualities that will satisfy this condition. The blue, however is ruled out unless a bright and light blue is chosen, because it fuses too easily with the background. White is highly desirable if it can be kept clean."

"Of the colors, yellow is most preferable. For all practical purposes, red can be added to make an orange without hindering its value in indirect vision, but adding materially to its value in direct vision."

Coach Zuppke, who has made a thorough study of psychology as it applies to football, stated that indirect vision is an important feature in all athletics.

## RESERVE OFFICERS TO HOLD SEPTEMBER MEET

(By the Associated Press)  
MINNEAPOLIS, Sept. 12.—To establish unity of action among reserve corps officers of the army in the Seventh Corps Area in the interest of the welfare of the regular army, a convention has been arranged here for Sept. 23 and 24, and the 5,000 officers in the area have been invited to attend.

Calling of this district convention allowed the organization of officers' mess associations in the larger cities in the seventh area, according to Nelson L. Shultis of Minneapolis, in charge of convention arrangements. At these dinners, matters of interest affecting the army and its personnel were discussed, he said, and the coming gathering is of the same nature, only wider in scope.

In the invitation sent to reserve officers, it is stated that the following will come up for discussion: Legislation which will put the army reserve corps officers upon reserve officers' mess associations.

Assistance for the activities of the Citizens' Military Training camps, and the R. O. T. C. Co-operation with the regular army and with the national guard, particularly fostering the support of national guard enlistments.

Definition of the functions of a Reserve Officer together with analysis of the Reserve Corps regulations.

It is the belief of the reserve officers. Mr. Shultis said, that the war department desires to build up and foster the reserve corps officer units, but is handicapped by a lack of federal appropriations. In the absence of a systematic organization under the war department's auspices, the officers will attempt to effect a working organization, Mr. Shultis declared.

Invitations have gone to Minnesota, North and South Dakota, Iowa, Nebraska, Arkansas and Kansas, which make up the Seventh Corps Area.

The first day of the convention will open in Minneapolis, while the meeting will be transferred to St. Paul the second day.

Heartburn after a hearty meal means weakness in the digestive organs. Prickly Ash Bitters gives them strength, tones up the stomach and purifies the bowels. It is the remedy that men use for such disorders. Price \$1.25 per bottle. Sold by Gwin & Mays. (adv)

## 3000 ARE EXPECTED AT O. U. THIS FALL

NORMAN, Sept. 12.—Eighteen new faculty members have been appointed for the fall semester at the University of Oklahoma to help care for the increase in enrollment expected by university officials. After a careful survey of the various sources from which students are drawn, 3,000 has been set as a conservative estimate for the fall enrollment.

Unusually large numbers of transfers from other university and college cities, are being received this fall, while but few requests are being received for credits, in order that students may transfer to other schools, according to the registrar.

The University of Missouri and the University of Texas are leading in the number of out of state schools whose students are transferring to the University of Oklahoma, while the state normal schools, Oklahoma A. and M. college and the Oklahoma denominational schools are contributing an unusually heavy number of new students to the university.

With the completion of approximately 100 new boarding and rooming houses as well as homes near the campus during the past summer, the room situation forms a minor part of the worries of university officials this fall, they say. The two new dormitories, the Methers for girls and the McAlester for boys, have added materially in reducing room rents, according to Y. M. C. A. and Y. W. C. A. officials.

Several hundred freshmen already have enrolled by mail and have secured rooming and boarding houses this way. Regular fall enrollment will open Thursday, September 15, and continue until Saturday night, Sept. 17, while class work is to start Monday September 19.

## SOONERS START GRID PRACTICE NEXT THURSDAY

(By the Associated Press)  
NORMAN, Sept. 12.—Officials call for 1921 Sooner grid candidates to report for practice Thursday afternoon, September 15, the day the fall semester of the University of Oklahoma opens, was sent out this afternoon by mail to thirty-five candidates by High V. McDermott, assistant football coach. McDermott arrived this week from his New Mexico home. He will have charge of the 1921 Boomer, or freshman squad.

With three games hard running on Boyd field this fall, starting Saturday, October 8, with Chief Meyer's Central Normalites and with most of his 1920 Missouri Valley champions returning, Ben G. Owen has expressed no special concern over football prospects this fall.

With all but six of the 1920 veterans returning, only two holes really seem to loom up on the Sooner football horizon—quarterback and right-half. But with the 1920 freshman candidates as well as a good supply from last year's second string returning, Sooner sport followers are confident that these two holes can easily be filled.

Kansas Jayhawks will furnish the homecoming attraction for the Sooners this year on Boyd field, Saturday, November 5.

## State News

(By the Associated Press)

PAWHUSKA—Bids are to be opened September 14 on paving contracts for District No. 11 in this city; one for the pavement contracts which calls for connection of the two sections of the city already provided with hard surface streets.

ENID—The fall festival to be staged at the county fair here September 16 will include a showing of 89 business firms of Enid, according to the fair committee. Governor Robertson has announced he will send an official delegation here for the opening.

DUNCAN—Paul Jones, son of Mrs. L. Jones, left Duncan the first of August to visit relatives in Oklahoma City, and has not been heard from since according to Mrs. Duncan, who has appealed to the chamber of commerce and local authorities for aid in locating him.

OKLAHOMA CITY—The safety code of the American Society of Mechanical Engineers will be applied to the oil country boiler in the near future, Claude E. Connally state labor commissioner announced at the close of a conference with representatives of the Mid-Continent Oil and Gas association.

BARTLESVILLE—A naval band, composed of fifty pieces will accompany the Bartlesville post of American legion to Enid the last of September in an effort to capture the state convention for Bartlesville next year.

TULSA—Living models made their appearance in Tulsa this week. One of the downtown ladies ready-to-wear stores adopted this means of attracting the gaze of the passersby to their windows.

## ASK YOUR NEIGHBOR!

San Antonio, Texas.—"Doctor Pierce's Favorite Prescription has been very beneficial to my health. I was suffering with weakness which caused me to be down and nervous. I was just miserable but by the use of the 'Favorite Prescription' I was completely restored to strength and good health. Knowing what 'Favorite Prescription' has done for me, I do not hesitate to recommend it to other women who suffer."—MRS. J. B. NAYLOR, 216 Rische Street.

Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package of any of his medicines.

## Obituary

Gordon Cathey, 56, died at his home 201 North Bluff street at 10 o'clock Saturday evening. He leaves a wife and three children. Funeral services were to be held at four this afternoon and burial at Rose-dale.

L. S. Adams, 36, died at his home 729 West Sixth street early today. Funeral services will be held tomorrow and burial will be at Rose-dale. He was not married, but leaves a father and mother.

### FARMERS' UNION HOLDS PICNIC AT FORD LAKE

The County Farmers' Union picnic at Ford's lake Saturday was not as largely attended as had been anticipated. In the afternoon addresses were delivered by Tom D. McKeown and Ed Reger, chairman of the executive committee of the state union. At the conclusion of his address, Mr. Reger took up the matter of organizing a co-operative store and explained how the plan is worked in other places. A committee of the county union has the matter in hand.

### Preaches at Prison.

Rev. W. H. Strong, pastor of the M. E. Church South, at Higgins, Tex., who finished a revival meeting recently at Center, preached to convicts at the state penitentiary, McAlester, last week, securing 60 conversions, a letter from him received here Monday said. He also talked to boys in the state reform school. Approximately 1200 prisoners heard Rev. Strong at the Sunday morning service alone.

Dr. Keith, Dentist, open nights 7 to 9. Phone 1, Rollow Building. 9-1-1mo\*

## KLAN APPEARS IN KONAWA SATURDAY

Money for Widow's Relief Is Sent With Official Announcement.

KONAWA, Sept. 12.—(Special)—The Ku Klux Klan made its first appearance in Konawa Saturday afternoon and night, first by formally introducing itself with an official communication to the local newspaper and then following this up by sending one of its members as a masked rider through the streets. Saturday afternoon the editor of the Konawa Chief-Leader received a letter by special delivery, written on the official stationery of the Invisible Empire and signed "Konawa Klan No. 32, Realm of Oklahoma." The letter said that "no innocent person had reason to fear or condemn this body of men." The letter also contained an envelope, sealed and addressed to a widow of this place, and carried \$25 for her relief. The message stated that one of the fundamental purposes of the Klan was to help the needy.

The money was delivered to the widow, who has several children and washes for a living. She was sick in bed when the messenger arrived with the envelope. Following this announcement that a branch of the Klan exists here, a lone rider appeared about 8 o'clock Saturday night in full Klan regalia and was witnessed by scores of awe-stricken spectators as he rode sedately down the street without making a sound. Several times he turned the horse about deliberately as if to show that he had perfect confidence in his security. The horse and rider were first seen on the south end of Main street and disappeared near the Katy depot.

To the teachers and students of Ada, we take this means of extending a hearty welcome.—Home Dining Room. 9-12-2t

## QUICK SERVICE

## FEDERAL AGENTS SWARM TO MEET AT NEW ORLEANS

(By the Associated Press)  
NEW ORLEANS, Sept. 12.—Government employees with occupations ranging from scientist to charwoman were represented at the opening here today of the fifth annual convention of the National Federation of Federal employees. Reclassification of the civil service on a merit basis, elimination of politics in appointments and promotions and a standardized pay scale fixed according to skill and training, three measures which the federation is campaigning for, will be again discussed at this meeting. Several hundred delegates are present. They come from every government service.

## Death List May Run Under 45 in Flood Saturday in Texas

(By the Associated Press)  
SAN ANTONIO, Tex., Sept. 12.—The waste, damage to property and rehabilitation work today was the principal reminder of the five hour flood early Saturday. The exact death toll is not known and remains slightly in doubt early this morning, the list varying from 45 to 47. In several instances bodies were identified under two names, and some reported dead, were found to be well and safe. A checking of the list will be made and the search for more bodies continues.

## FALL REVIVAL SEEN IN WEDDING PERMITS

Marriage license business took a brisk fall revival during the week end at the court clerk's office, five permits to wed being issued.

They are: Perry Henson, 21, Oakman, and Miss Mary Lou Crawford, 18, Oakman.

Burch S. Sisemore, 24, McAlester and Miss Sylvie Phillips, 18, Fitzhugh.

John Hanson, 24, Ada, and Miss Classic Townsend, 16, Ada. Rance Tucker, 21, Stratford, and Miss Mamie Roberts, 21, Stratford. A. L. Hathaway, 30, Ada, and Miss Beula Smith, 23, Ada. Ennis Hudson, 19, Roff, and Miss Olive Crowder, 20, Roff. The first couple was married by Justice of the Peace H. J. Brown and Rev. C. C. Morris, pastor of the First Baptist church, performed the service for A. L. Hathaway and Miss Beula Smith.

Notice.  
All property owners living on and adjoining Oak avenue from Main street north are requested to meet at the Nazarene church Wednesday, September 14, at 8 o'clock, to form plans and means to gravel Oak avenue from Main street to the city limits.—W. S. Smith, Commissioner of Public Works. 9-12-2t

## FINAL REPORT ON FLOODS IS NOW EXPECTED

(By the Associated Press)  
HOUSTON, Tex., Sept. 12.—Weather bureau officials were without additional information this morning as to the flood conditions on the Brazos and Colorado rivers, but expect to have reports from correspondents before noon. Early reports to newspapers indicate that the rivers, where damage was feared yesterday, were receding. A three-foot fall was reported from Hearne. Besides reports from one place of the drowning of forty Mexicans and reports from Hearne that seven negroes had been drowned as they attempted to make their way from the bottoms, reports of the loss of life were few and scattered.

More Casualties Added.  
DALLAS, Tex., Sept. 12.—Partial restoration of communications with the flood stricken district of central Texas up to noon today brought the death list, based on unconfirmed reports and exclusive of more than forty at San Antonio, up to more than fifty. These figures are subject to revision, probably downward, when wire communications are restored. Property damage from the floods of the Colorado, Brazos, San Marcos, Little and other rivers probably will run into millions, principally in corn and other crops and livestock.

## EIGHT MEN MAKE ESCAPE FROM McALESTER JAIL

McALESTER, Sept. 12.—Eight men made good their escape in a jail delivery from the county jail here Sunday night. This is the

## COTTON PICKING OPENS IN STATE

But Yield Is Reported To Be Lowest in History of Oklahoma.

OKLAHOMA CITY, Sept. 12.—The year just closing has been one of cooler temperatures with showers which fell over practically the entire state. The rainfall was light in some sections while other parts reported precipitation well over the two inch mark. The western and northeastern counties received good rains while the southwest counties where moisture was needed the most received the lightest showers. Generally the rains were timely and all growing crops were benefited materially.

Cotton continues to show a very poor condition figure. Picking is quite general in the southern counties, however. The yield will probably be the lowest recorded for the state. Reports are common of but a bale to 10 to 25 acres in some localities it is thought that 50 acres will hardly make a bale.

Late corn was benefited in all parts of the state by the timely rains of the past week. During the past month the crop fell in condition from 1 to 12 points all over the state except in the extreme southeastern counties. The best condition figures are reported from the central, south-central, east-central and the southeastern counties. The northeastern and southwestern counties report the poorest condition figures. The estimates based on the condition figures of September 1st, forecast a yield for the state slightly under the 89,000,000 bushel crop of last year.

Grain sorghums are heading well and satisfactory yields of grain are the forecast. The estimated acreage for this year is 1,431,000 acres, and the yield 32,054,000 bushels.

Pastures were benefited by the rains of the past week. Livestock is reported in good condition however, the number of stock cattle on farms at the present time is the lowest figure on record for the state.

Plowing has been resumed throughout practically all the wheat counties as recent rains have made operations possible.

It is deemed wise at this time to issue a warning regarding a feeding of native oats to horses and mules. Oats this year were generally very musty and moldy at the time of threshing due to the very wet weather prevailing at the time of harvest. Mouldy oats are the cause of forage poison, gastro enteritis and paralysis in horses and mules and the mortality is frequently very great. It would be well for each feeder of horses and mules to look over the oats and discard all that which is moldy. Such oats may be used for cow, hog or chicken feed without affecting them.

## SCHOOLS TO OPEN WITH GOOD START

Eighteen Colleges and Prep Institutions Starting Annual Terms.

(By the Associated Press)  
OKLAHOMA CITY, Sept. 12.—The machinery of Oklahoma's school system is in operation with the parts in better condition than ever before, according to R. H. Wilson, superintendent of public instruction.

The end of this week will see the last of the schools ready to begin class room work, with more pupils enrolled than for any other year. No official estimate could be made at the offices of the state board of education, but it was unofficially stated that the enrollment already realized was at least ten percent greater than for last year.

Eighteen colleges and schools of higher instruction are conducted by the state, the largest of these being the University of Oklahoma at Norman, and the Oklahoma A. and M. College at Stillwater. Each of these schools has made several changes in faculty during the past year, the university having made about twenty, while A. and M. has made forty changes, and several additions to its staff.

The University of Oklahoma has no new courses offered this year but intends to perfect the courses already offered, officials said. The Oklahoma A. and M. college has added five departments.

Other Schools Start.—Besides the state institutions, there are several denominational schools in Oklahoma, which are accredited. Among these perhaps the best known are Phillips university at Enid, and the University of Tulsa, formerly called Henry Kendall college.

The total sum appropriated by the eighth legislature for the salaries, maintenance and equipment of the state schools amounted to more than \$1,700,000 for the coming year, according to the session laws of that body.

Teachers in Oklahoma are not being paid as much as they were last year, according to C. M. Howell, state high school inspector, who today said the average salary is about \$20 less a month for the average teacher. All the teachers available have been supplied with positions, he said, and a small demand is still left.

There exists an increasing demand for the graduates of the state colleges, universities and normal schools as teachers, he stated, adding that the state never has been able to supply this demand.

The consolidated school districts of the state comprise about three-fifths of the rural schools at the present time, according to the state board of education. This system, they said, has evidently proved very satisfactory and nearly a score more districts are completing that system this year.

## ADA BATTLES 18 INNINGS TO DRAW

(Continued from Page 1)  
safe on McWilliams' error, and stole second. Sparks flew out to right field. Young scoring on the throw to second. West flew out to C. Williford, and Cover was doubled at second.

**Eighth Inning.**  
Beggs—Hubble, taking the place of A. Weir, was out, Fain to Rutledge. Caveny flew out to Wray, who had taken the place of Roach in center field. McWilliams flew out to Rutledge.

Ada—Wray was out, Medler to McWilliams. R. Waner was out, C. Williford to McWilliams. Fain singled and stole second.

**Ninth Inning.**  
Beggs—C. Williford was out, Fain to Rutledge. Moore singled, and was touched out by Fain when Medler hit a grounder. Caudle flew out to Cover.

Ada—Rutledge walked. Young

flew out to Caudle. Cover flew out to Caveny. Sparks flew out to C. Williford.

**Tenth Inning.**  
Beggs—R. Weir flew out to Fain. E. Williford flew out to R. Waner. Hubble was out, P. Waner to Rutledge.

Ada—West struck out. Wray singled. P. Waner was out, Medler to McWilliams. Wray taking second. Fain struck out.

**Eleventh Inning.**  
Beggs—Young flew out to Rutledge. McWilliams singled. C. Williford singled. More new out to R. Waner, and McWilliams was caught off second by R. Waner.

Ada—P. Waner was out, A. Weir to McWilliams. Rutledge was out, C. Williford to McWilliams. Young struck out.

**Twelfth Inning.**  
Beggs—Medler singled. Caudle hit into a double play. Young to Fair to Rutledge. R. Weir was out, R. Waner to Rutledge.

Ada—Cover was out, Medler to McWilliams. Sparks singled. West was out A. Weir to McWilliams. Wray fanned.

**Thirteenth Inning.**  
Beggs—E. Williford flew out to Wray. Hubble was out, R. Waner

to Rutledge. Caveny flew out to Wray.

Ada—R. Waner flew out to A. Weir. Fain fanned. P. Waner singled. Rutledge walked. Young singled, filling the bases. Cover flew out to Caveny.

**Fourteenth Inning.**  
Beggs—McWilliams flew out to Fain. C. Williford fanned. Moore flew out to R. Waner.

Ada—Sparks singled. West flew out to Caudle. Wray flew out to Caveny. R. Waner hit to Medler, forcing Sparks at second.

**Fifteenth Inning.**  
Beggs—Medler was out, P. Waner to Rutledge. Caudle was out, Medler to McWilliams. Rutledge singled. Young was out, C. Williford to McWilliams.

**Sixteenth Inning.**  
Beggs—E. Williford was out, Fain to Rutledge. Hubble hit for three bases. Robinson struck out. Hubble was caught off third by Young.

Ada—Cover was out, Moore to McWilliams. Sparks walked. West and Wray fanned.

**Seventeenth Inning.**  
Beggs—McWilliams was out, R. Waner to Rutledge. C. Williford was out the same way. Moore singled. Medler fanned.

Ada—R. Waner was out, Moore to McWilliams. Fain struck out. P. Waner walked. Rutledge was out, Robinson to McWilliams.

**Eighteenth Inning.**  
Beggs—Caudle flew out to Young. R. Weir was out, R. Waner to Rutledge. E. Williford singled. Hubble grounded out to Rutledge.

Ada—Young was out, C. Williford to McWilliams. Cover flew out to Caudle. Sparks flew out to Medler. Called on account of darkness.

## FLOYD ASKS TEACHERS TO BORROW LIBRARIES

Rural schools of Pontotoc county are being urged to take advantage of an offer of the free use of books, extended by the Oklahoma Library Commission, in an informal campaign this week under the direction of County Superintendent A. Floyd.

Many country schools of the county which did not have access to a regular library took advantage of the offer last year, Mr. Floyd said, and all profited by the move.

In a letter received Monday at the county superintendent's office, Mrs. J. R. Dale, secretary of the Oklahoma Library Commission, points out the good to be obtained through the use of state books.

Blanks for the use of teachers who wish to obtain use of the library commission's books are in the hands of the county superintendent and will be sent free is requested. Following is part of Mrs. Dale's letter:

"There are doubtless a number of districts in your county which would like to have more books for its children if they only knew how to go about it.

"I believe we can co-operate with you in developing a love of books and reading in the children of the rural schools of your county. We have been doing just that kind of work in many counties with great success.

"If it would not be too much trouble for your office to send us a list of teachers of the districts whom you think most likely to be in need of more books, we may be able to assist them."

A drive for the GOOD ROADS MOTOR CLUB will commence Tuesday, September 13th. This drive will be managed by the ladies of the cemetery association. Every car owner will be asked to join the club. By becoming a member of the GOOD ROADS MOTOR CLUB you will not only help in the building of good roads but you will also be helping the ladies of the cemetery association with the chapel which they are striving so hard to build in the year 1922.—Mabel Browall, membership secretary. 9-12-1td.

The Ada Weekly News is gradually becoming a real farmers' news paper, edited by Byron Norrell. It not only has a wide circulation, but an advertisement in it carries also the prestige of its reputation for truth and right dealing.
